

Equal Opportunities Monitoring

The Patchwork Foundation aims to promote, encourage and support the active participation of young people from under-represented, deprived and minority communities in British democracy and civil society.

As part of our ongoing work to ensure the representation of a wide range of lived experiences we are encouraging the anonymous collection of lived-experience data from current and potential trustees.

Please complete and return this form to Sajidah Patel, Saj@patchworkfoundation.org.uk alongside your application..

Please select if you identify as part of any of the following communities:

- Communities experiencing racial inequity
- Faith communities
- People with lived experience of the immigration system
- Deaf, Disabled and/or Neurodivergent People
- Older and/or younger people
- Women and girls
- LGBTQI+ people
- Working class communities
- People who are educationally or economically disadvantaged
- People who have experience of the care system
